

Chiara Maddalena Luongo

Business Informatics student

PROFILE

I am a third-year Business Informatics student at the University of Bolzano, with skills and competencies in UX design,, databases, and cybersecurity.
Two internships taught me how IT runs inside a large company.
I am determined to enter a stimulating work environment that will help me develop new skills in the IT field.

EXPERIENCE

Cybersecurity Specialist Intern — Alperia S.p.A., Bolzano | Aug – Oct 2026
Digital, PMO & Innovation and Infrastructure departments

- Prepared technical sheets on NIS2 requirements and how they apply to company processes.
- Built a process map by using the cybersecurity playbook of the team.
- Scouted and evaluated vulnerability management software, in meetings with internal stakeholders and vendors.
- Learned how IT and OT infrastructure is managed.

Cybersecurity and Vendor Technologies Intern — ICOS S.p.A., Bolzano | Jul – Oct 2025

- Completed the Sophos Academy: Sales Fundamentals, Central Endpoint Engineering, Firewall Engineering.
- Ran simulated customer presentations in Sophos Central and Firewall demo environments.
- Completed the Cisco course "Networking Devices and Initial Configuration" and studied Safetica Data Loss Prevention.

SELECTED PROJECTS — full documentation at chiaral24.github.io

- **Inspora (Software Project Management) —** Planned and pitched a research-sharing platform in a team of four, across two iterations.
- **Clarity in the Cloud (UX) —** From user research and personas to a Figma prototype, value model and lean canvas.
- **Universal Pictures (Enterprise Architecture) —** Full ArchiMate model, from business goals to a migration roadmap.
- **Taco Bell in Italy (Corporate Finance) —** Investment analysis with NPV and WACC, ending in a clear go/no-go recommendation.
- **Catch 'n' Trade (Databases) —** ER model, BPMN processes and a Java + SQLite marketplace on 30 tables.
- **Data Mining (Python, KNIME) —** Predicting book success; classifying rare Higgs boson events.
